

## TECHNICAL DATA SHEET

### Double-sided Adhesive Tape with Film Carrier

Product Name & No: 100TD

### Technical Data

Adhesive Carrier	:	Film Carrier
Adhesive System	:	Acrylic Dispersion
Liner	:	Film Liner, Silicone-coated
Thickness (Without Liner)	:	0.19-0.21 mm
Recommended Processing Temperature	:	+10 °C to +30 °C
Temperature Resistance	:	-30 °C to +100 °C
Recommended Processing Temperature	:	Very High
Aging Resistance	:	Very High
Plasticizer Resistance	:	High
Tack	:	Very High

### Product Features

The adhesive system consists of a high performance, solvent-free acrylic dispersion, which is ageing resistant and has well-balanced properties regarding adhesive strength and shear adhesion.

### Application Area

The high initial and final tack, as well as reliable adhesion to low-energy surfaces, prepare it for all classic applications in the bonding of plastic, wood and rubber profiles, scales, panels, signs, displays, strips, (heavy) decorative parts, foams, felts or aluminum sheets.
